

NASTRO-SB™ -R5-R6

Choosing taping with logic

SEMI-AUTOMATIC CASE SEALER

100%
MADE in ITALY

NASTRO-SB™ - R5 - R6

Nastro-SB™ R5 - R6 is a range of semi-automatic heavy duty case sealing machines designed and **engineered by SIAT specifically for** small, medium, and large **random box sizes**. It is the first range of semi-automatic taping machines **with logic on board**. Nastro-SB™ R5 - R6 is the ideal case sealing machine for a variety of industries like food&beverage, chemical, clothes and e-commerce.

SPECIFICATIONS

Production Capacity: 900 boxes/hour

Case type: RSC - FEFCO 0201

Max case weight: 32 kg

Box size		Medium	Large	Very Large
Box Dimensions S Version (mm)	Lenght (L)	140 - ∞	140 - ∞	140 - ∞
	Width (W)	150 - 500	150 - 650	150 - 800
	Height (H)	90 - 500	90 - 650	90 - 800
Box Dimensions L Version (mm)	Lenght (L)	120 - ∞	120 - ∞	120 - ∞
	Width (W)	80 - 500	80 - 650	80 - 800
	Height (H)	60 - 500	60 - 650	60 - 800

FEATURES & BENEFITS

- » Fast and flexible - fast processing of a wide range of random boxes, self-adjusting immediately when the box is loaded
- » Logic on board - patented variable speed to increase machine capacity up to 70%
- » Faster than standard case sealers - thanks to patented variable speed functions
- » Energy saving device - included as standard
- » Smart and safe - motors and conveyors stop after a defined time when no cartons are detected
- » Instant access to the machine diagnostic - to optimize service and save resources and time with information already available on the machine display
- » IoT module with SIAT Optirun platform - to monitor machine performance, productivity, working time, and tape consumption, on request
- » 60 mm minimum box height
- » Linear belt conveyor movement
- » End/broken tape alarm device on request

monitor your machines at any time

The SIAT Group

Headquartered in Northern Italy, SIAT is established as a quality leader in end-of-line industrial packaging solutions, specializing in taping, strapping and wrapping machines, as well as flexographic printing machines.

Based in Ohio (USA), Combi is a Northern American producer of industrial packaging systems, engineering and manufacturing case erectors, tray formers, case sealers, case packers, robotic packaging systems, and ergonomic monoblock hand-packing stations.

Located in Northern Italy, Tam has been producing small metal parts and providing precision machining services for over 30 years.

For over 50 years, we have been manufacturing high-tech equipment and are proud to be recognized by our customers as among the leading brands in packaging machinery and components. Our solutions are utilized across various industries, including food and beverage, e-commerce, logistics, packaging, and consumer products.

Our machines are designed to:

Increase customer productivity

Our machines boast an average life of 25 years, while our customers pay off their investment in only 4 to 5 months.

Total lower cost of ownership

Our machines are designed for easy maintenance and simple installation. They are developed to be user-friendly and durable, while also being easy to integrate and manage.

Reduce environmental impact

We strongly believe in pursuing this goal through our environmental approach, envisioning the future of packaging as a collaborative effort with our customers to find the most sustainable and secure solutions. Each machine is designed to consume less energy, minimize material usage, and reduce waste.

Be connected

Thanks to Optirun, the SIAT Group's IoT solutions brand, we can calculate tape and box consumption, monitor film usage, and track all machine parameters to prevent downtime.
